

WE ARE HELPING CITIES TO  
BUILD A MORE DIGITAL, GREEN  
AND SUSTAINABLE FUTURE

# 2023 COMPANY BROCHURE

[www.citiesforum.org](http://www.citiesforum.org)

## ABOUT US

Cities Forum is an international consultancy firm and think tank that aims at being catalyst, working with cities and governments to solve their sustainable urban development challenges.

## OUR GOALS

Assist local authorities and governments in the challenge of designing and implementing successful sustainable urban development policies and projects.

Empower all the actors involved in building a more sustainable future for our cities by creating a community where to foster cross learning, networking and joint initiatives.

Promote urban and regional sustainable development initiatives for resource efficient, low-carbon, smart and liveable cities.

Make use of our profesional network to facilitate public-private partnerships aimed at building smarter, greener, and more sustainable cities for a higher quality of life.

## WHAT WE DO?

We advise worldwide decision makers on how to build more resilient, green, digital and sustainable cities

**Provide consultancy services** to governments and cities

**Drive Sustainable urban development** globally

**Highlight best practices** and foster cross city learning

**Provide capacity building** to professionals and public entities

## Provide consultancy services

# 01

CITIES FORUM provides strategic consultancy services to governments, cities and organisations where to support the **transition to a more digital, green and sustainable future** for our cities.

Cuenca's project kick off meeting (Ecuador)

# 02

We do this by **enabling and supporting the informed decision-making process** with our global and transdisciplinary team of associated experts and by providing close support in our delegations in London, Madrid, Dubai, Bogotá and Bangalore.

CITIES FORUM'S Team Meeting in Dubai

# 03

Most of our staff have worked for municipalities in the past. It allows us to **have a profound understanding of the challenges cities are facing** and be capable to support them the best way possible.

Network of associated experts

## Drive Sustainable urban development

# 01

CITIES FORUM is carrying out and getting involved in projects and initiatives focused on providing people and the public sector with the proper tools and aid to **enable sustainable development around cities and territories' needs.**

Tool developed for TUMI VOLT (GIZ)

# 02

We are participating as partners in plenty of city projects in Europe, Latin America, Asia and Africa. We provide added value by supporting these projects with the **experience and complementary skills of our international teams of experts.**

USER CHI project meeting in Barcelona

# 03

We take advantage of our network of contacts, clients and collaborators and our community of followers to **boost the communication and dissemination outreach of the projects** we are involved .

Zeina Nazer at the World Mobility Show Dubai

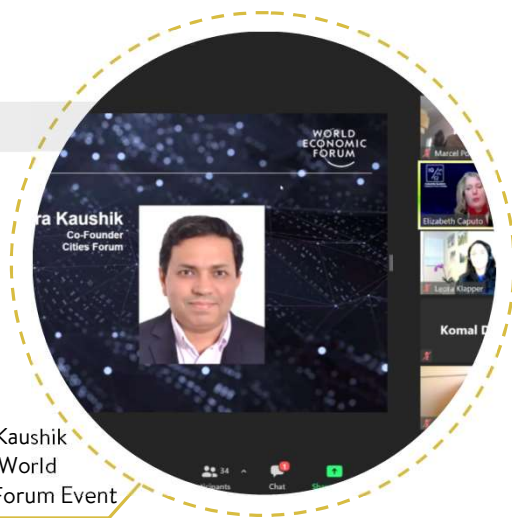

## Highlight best practices and foster cross city learning

# 01

CITIES FORUM is keen to spread the word and disseminate all kinds of successful city projects across the world to **help cities to learn from each other** and support them in the designing process for a better future.

Shailendra Kaushik speaks at a World Economic Forum Event

# 02

We are **partnering with the most relevant events** about sustainable and smart city topics worldwide. We act as content curators, give the event visibility through our social network profiles and take part in many of them.

Latam Mobility Summit Mexico 2022

# 03

**We lead study visits** to city projects and other activities where to learn from their journey and experience in fields like e-mobility, digitization of public services, green investments or social inclusivity among many others.

Study visit E-buses depot Bogotá

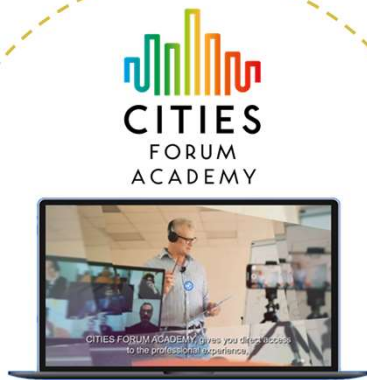

## Provide capacity building to professionals and public entities

01

We are **providing capacity building and bespoke technical training** to professionals, companies and public bodies around the world in the fields of the Smart, Green, Social and Digital transformation of cities.

CITIES FORUM ACADEMY

02

CITIES FORUM ACADEMY gives you **direct access to the professional experience**, insights and lessons learnt from successful and reputed experts as practitioners, academicians and decision makers.

Programs of CITIES FORUM ACADEMY

03

Many individuals, companies and organisations are benefiting from **up to date, innovative, engaging, real world and market-oriented knowledge and best practice** in all the professional programmes we offer.

PPP training to Kenyan delegation

- ✓ Cities Forum was born from the willingness of a group of multidisciplinary experts who met at the Oxford University and decided there to create and launch this organisation by joining forces and taking advantage of their skills, experience and common background in making cities more efficient, resilient and sustainable.
- ✓ Through our Global team of experts, we have skills to review, analyse and prioritise city development projects that can create a catalytic economic impact for cities and Regions.
- ✓ Our team brings international best practices and experience, combined with local resources and knowledge. We combine in-depth technical excellence and strong capabilities in research and technology implementation in managing cities.
